

JASON PATCHETT'S FIRST VOTE IN OFFICE?

A \$1.5 BILLION "HOLLYWOOD HANDOUT"

We've seen this exact play before - right here in our area.

It blew up in our faces then. It'll blow up again.

YOUR MONEY THEIR WINDFALL PATCHETT'S VOTE

Dear Fellow Republican,

You don't need to wonder how Assemblyman Jason "Hollywood" Patchett will vote if elected to represent us in Carson City next year.

He already told you.

His very first major vote in office was to hand up to \$1.5 billion in transferable tax credits to "woke" California movie studios.

Not Nevada businesses. Hollywood.

That vote came during last November's special session - after he was **appointed** (*not elected*) to the seat by the Democrats on the Clark County Commission.

That alone is a bright red warning signal.

WRONG PRIORITIES

You and I are already getting squeezed. Higher prices. Higher fees. A cost of living that won't quit.

And Jason Patchett's first priority? Tax breaks for movie studios that **don't even have a Nevada zip code.**

Not for the restaurant owner in Mesquite hanging on by a thread.

Not for the contractor in Henderson trying to make payroll.

Hollywood.

WE'VE SEEN THIS MOVIE BEFORE

Remember Faraday Future? Right here next to our district at the Apex Industrial Park?

Politicians **handed hundreds of millions** in tax incentives to that electric vehicle startup.

The promises were enormous - 4,500 jobs, a billion-dollar investment, a shiny new industry for Nevada.

What actually happened?

Contractors walked. Payments stopped. Construction collapsed.

No factory. No jobs. No boom. Just politicians who moved on.

Now they want to run the same play again. Different industry. Same pitch. Same insiders.

The only thing that changed is the name on the press release.

YOUR MONEY. THEIR DEAL. YOUR PROBLEM.

Jason calls it "*economic development*." But here's what it really is:

Government reaches into your pocket and hands that money to companies with the right lobbyists and the right political connections in Carson City.

Meanwhile, Nevada businesses keep paying the full tab.

That's not a free market. That's not conservative. That's the government picking winners and losers - **and you're not one of the winners.**

YOU PAY MORE SO THEY PAY LESS

Nevada businesses are already crushed by the Commerce Tax - a burden Republicans have fought for years.

But instead of repealing that burden... instead of cutting taxes for the businesses that actually employ you and your neighbors...

Jason voted to hand a brand new tax break to companies with no roots here.

When Hollywood pays less, you pay more.

Higher taxes. Higher fees. More pressure on your family.

You absorb the hit so a studio executive in Los Angeles doesn't have to.

THIS WAS A TEST - AND JASON FAILED

This wasn't a complicated vote. It was a simple question: Who do you work for?

Nevada families and the businesses they depend on - or the lobbyists with the better cocktail party invitations?

Jason Patchett answered that question. And it wasn't us.

THE CHOICE IS NOW YOURS

Real economic development starts with the people already here.

The businesses that employ Nevadans, invest in our communities, and stick around when times get hard.

Not companies chasing a subsidy check.

I support repealing the Commerce Tax so Nevada businesses can grow, hire, and thrive.

That's REAL economic development – for Nevadans who have already invested here without being “bribed” to do so.

On June 9th, you have a choice: more risky deals and insider giveaways from someone who already voted for them...

Or someone who will put you first.

The Democrats on the Clark County Commission picked him – not you.

But now you finally get to choose for yourself.

Please vote for **Amy Groves** on June 9th – because you deserve a representative who works for **you**, not the lobbyists in Carson City.

Sincerely,

-Amy

Amy Groves

Candidate for Nevada State Assembly District 19

P.S. Faraday Future promised 4,500 jobs. Zero materialized. Now they want to bet \$1.5 billion of *your* money on Hollywood.

Jason Patchett already said yes. *On June 9th, you get to say no.*

P.P.S. I'd love to hear from you personally. Visit **voteamygroves.com** - email me at **amy@voteamygroves.com** - or call/text me directly on my cell at **(702) 521-7119**.

P.P.P.S. Campaigns like mine don't run on insider money. They run on people like you chipping in what they can. **\$25, \$15, even \$10** on my website which goes directly toward reaching more voters before Election Day.
